BENEFITS OF CI/CD IN ORGANIZATION

TRUNG HA

CREATE Revenue

- **CI/CD** enables faster release of features and updates, boosting customer satisfaction and potentially increasing revenue.

PROTECT Revenue

- **CI/CD** ensures a deployable state, reducing downtime and potential revenue loss due to software failures.

REDUCE costs

- **CI/CD** automates build, test, and deployment, cutting manual effort and minimizing human error risk. This optimizes resources and reduces time spent on manual tasks, resulting in cost savings.
